

MUSCLE (HYPERTROPHY)

Your 12-week welcome packet, built for precision growth, refined and targeted.

Welcome

Welcome to Echelon. You already carry decent muscle, and these 12 weeks are built for refined, targeted growth, not general mass gain. Expect more exercise variety and more intentional targeting than a standard bulk, with the goal of building the physique you actually want.

Your Program At a Glance

Format: A 5-day body-part-emphasis split (Push, Pull, Legs, Upper, Lower), moderate-to-high volume, shorter rest than a bulking block to prioritize the muscle-building stimulus.

Phase	Weeks	What's Happening
1: Volume Base	1-4	Establishing the mind-muscle connection, moderate volume.
2: Overreach	5-8	Sets increase progressively, isolation work pushes closer to failure.
3: Intensity Techniques	9-11	Drop sets, rest-pause, and slowed eccentrics on final sets.
Deload	12	Volume cut about 40 percent, reassess physique and lift quality.

How We Work Together

- Your day-by-day training lives in Today's Work inside your Member Portal, log in anytime to see what's next, and mark it complete once you finish.
- Check in honestly. Tell your coach what actually happened, not what you think we want to hear, an honest "I missed two days" helps us adjust; a false "everything's perfect" just delays the fix.
- If something hurts (not just the normal soreness of training), stop, message your coach before your next session, and see a clinician if it does not resolve. Never push through real pain.
- Your plan will change. What you start Week 1 with is not what you will be doing Week 8, that is not the plan failing, that is the plan working.

What Makes Muscle (Hypertrophy) Different

Muscle (Hypertrophy) is refined growth for a client who already carries decent muscle and wants targeted, precise development, not general mass gain. Higher exercise variety and deliberate muscle-group targeting set it apart from a standard Bulking block's simpler heavy-compound focus.

The Echelon Standard

Every Echelon program is built on the same four things: Structure, a proven system that removes the guesswork; Accountability, coaching and check-ins that keep momentum moving; Commitment, progress earned by returning to the standard, especially when motivation is low; and Faith, strength that starts internally, character and purpose driving everything else. The exercises in front of you are specific to your goal. The standard behind them is the same for every person who trains with us.

Getting In Touch

Message your coach anytime through the Member Portal, that is the fastest way to reach us during your program. For anything else, reach Echelon Fitness Collective at echelonfitness.co.
