

1-ON-1 COACHING

Fully individual coaching built around one person's body, schedule, and goals.

ECHELON FITNESS
COLLECTIVE

THE STANDARD

Premium, individualized coaching with direct access, deliberate communication, and a plan that adjusts to the member instead of the other way around.

01 / PROGRAM IDENTITY

1-ON-1 COACHING

Echelon's highest-touch offering is built for members who want training and communication shaped entirely around their own body, schedule, and goals. It is not a bigger version of group coaching -- it is an entirely individual relationship.

There is no shared template. The plan starts with one person's reality and stays built around it as their schedule, recovery, and goals change.

WHAT THE MEMBER RECEIVES

- **A fully personalized training plan**, built and adjusted around them specifically, not a shared template.
- **Direct, prioritized access** to their coach for questions, adjustments, and accountability.
- **A rolling monthly block system** instead of a fixed end date, so coaching evolves with the member.
- **The same weekly coaching rhythm** as the Echelon 12, with more room for individual nuance.

COACHING BOUNDARIES

Screen for readiness, modify within scope, and refer out whenever symptoms, injury concerns, or medical questions require a qualified clinician. Individual access does not mean unlimited scope -- coach behavior, process, and safe progress.

02 / THE BLOCK SYSTEM

DISCOVER. DEVELOP. RENEW.

Instead of one fixed program length, 1-on-1 coaching runs in monthly blocks. Each block has a clear purpose; renewal is a real decision point, not an automatic continuation.

BLOCK	FOCUS	COACH ACTION
Discovery Block (Month 1)	Establish trust, movement competency, and communication rhythm.	Weight teaching and calibration over intensity.
Development Blocks (Ongoing)	Progressive, individualized programming toward the stated goal.	Adjust based on adherence, recovery, and results.
Renewal Point (End of each block)	Review progress and decide the next block's focus.	Set the next block before the current one ends.

Do not let a block end without a decision. A member without a defined next block is a member at risk of drifting.

03 / DELIVERY SEQUENCE

FROM DISCOVERY CALL TO FIRST BLOCK

Complete these in order. Create a Coach Command task whenever a step belongs to a future date or needs follow-up.

STEP 1 CONSULT

Schedule a discovery call before agreeing to anything.

Document goals, schedule, physical limitations, and preferred communication style.

Confirm 1-on-1 is the right level of support before moving forward.

STEP 2 CONFIRM

Send the coaching agreement, schedule, and payment plan.

Send the Member Portal invite once payment is confirmed.

Set expectations for response time and communication channel.

STEP 3 PROGRAM

Publish the first training block in the Member Portal.

Explain exactly how feedback and adjustments work.

Set the Discovery Block's single primary outcome.

STEP 4 RETAIN

Hold a monthly progress review before the block ends.

Set the next block's focus before the current one closes.

Log notes after every meaningful contact.

04 / WEEKLY COACHING CADENCE

THE WEEKLY REVIEW

Use the member's Weekly Check-In as the center of your coaching, exactly as with every other Echelon program. Review the full pattern before changing training or nutrition.

REVIEW	COACH ACTION
Training completion	Celebrate completed sessions. If adherence is low, reduce friction before adding more work.
Energy, sleep, soreness	Adjust volume, recovery guidance, or exercise selection when the recovery picture calls for it.
Communication fit	Confirm the current contact rhythm still matches what the member actually wants.
Wins and barriers	Name one win, solve one barrier, and assign one next action in the reply.

Win: Name what the member did well. Read: Reflect the pattern you see. Adjustment: State the one change, if any. Next action: Give one specific commitment before the next check-in.

05 / COPY AND SEND

MEMBER COMMUNICATION STARTERS

DISCOVERY CALL FOLLOW-UP

Thank you for the call today. Based on what you shared, here is what I recommend for your first Discovery Block: [summary]. Your agreement, schedule, and payment link are below -- let me know if anything needs adjusting before we lock it in.

FIRST BLOCK LIVE

Your first training block is live in the Member Portal. This month is about building trust in the process: complete the sessions, follow the plan as written, and tell me what feels smooth or difficult so I can calibrate from real information.

BLOCK RENEWAL

Your current block wraps up on [date]. Based on your progress, here is what I recommend for the next one: [recommendation]. Let's confirm the focus so your next block starts without a gap.

The Echelon standard is delivered in the details: clear expectations, composed follow-up, and a member who always knows the next right action.
